

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THE sixth volume of the *Codex Diplomaticus Aevi Saxonici* comprises about one hundred and fifty documents, which could not find a place in the first four volumes. Of these, nearly one-third are in Saxon. It is probable that there may still remain, in different parts of England, from one hundred to one hundred and fifty charters unprinted. Transcripts of a portion of them are already in my hands, and whenever I am fortunate enough to obtain copies of the rest, I shall take care that they are published, but for the present this work must be considered to be closed; and with this volume I take leave of the readers who have patiently and courteously accompanied me for nine years. The extraordinary amount of information to be derived from these documents, renders their publication an era in the studies of Teutonic scholars: for law, language, and history, they are full of data, without which no inquiry in this field, however industrious and conscientious, could possibly be successful. Germany and Scandinavia have their part too in the collection; it is the running comment upon a dark portion of history, in which the greatest nations of the world dimly and indistinctly figure; and though it belongs immediately to England, it contains many notices which will be valued both north and south of the Elbe. Most valuable is it at a moment like this, when the singular and exceptional position of our country challenges investigation at the hand of the philosophical historian; and when our privilege of

quiet deserves to be studied, as well as envied, by our neighbours.

More than fifteen hundred documents have survived the conquests and trappings of armies, the storm of revolutions, the yet more efficient and gradual changes of fashion, and the altered forms of public and private life; they have survived not only to show us what our forefathers thought and did, but to prove the marvellous resemblance which, in spite of every influence, we, their late descendants, bear to our forefathers. Let us be assured that the Englishman has inherited the noblest and best portion of his being from the Anglosaxon; and, by a rare good fortune, he has the means of comparing his actual condition with that which lay at its remote foundation. It is in every point of view most extraordinary that documents, entrusted to such frail materials as parchment or vellum, often drawn up in a language which has long been unintelligible, should still remain, after eight hundred years of interval, for our contemplation; but, since it is so, let us avail ourselves of the facts they teach.

The repositories in which they have been preserved are the libraries of the British Museum, the Universities, and the various cathedrals, and, in very rare cases, those of private collectors. Many are yet extant in their original form, viz. as single charters on sheets of vellum of greater or less size; nay, sometimes we have even the duplicates and triplicates of the same charter, laid up in different repositories. A few are known to us from having been confirmed by the early English kings; the usual form in such a case being for the king to state that he had seen such and such a charter, in manner and form following, and that he confirmed it. From the words used, this confirmation is called an *inspectimus* in England, a *vidimus* on the continent, and the ancient charter is

recited verbatim in the body of the new one. Many of these are found in the Exchequer, in the office of the King's Remembrancer, a few only in the Rolls of the Tower; a few are on single sheets of vellum, as they may have been made out for the religious House whose property it was desired to guard. The most numerous documents, however, are those which have been entered into Chartularies, or books, belonging to the monasteries, and preserved by them as title deeds, charters of privilege and immunity, and either as evidences of property, or rank, precedence, and authority. The idleness of the cloister was sometimes beguiled by copying such chartularies; single sheets might be mislaid or worn out, if too frequently produced for the inspection of either friends or foes; a digested copy of all the land-titles was easier to use, and tended to secure the safety of the originals. From time to time these Registers or Chartularies were recopied, and, for the most part translated in recopying into the form of speech current at the later period; they thus offer to the scientific philologist a mass of data upon which inquiries into the progress and changes of language can be most securely founded. In many cases they have preserved to us copies of charters whose originals are no longer found; and as they have also preserved copies of many which we possess in their first and oldest form, they supply the means of comparison and induction as to the genuineness of others for which we have no authority but their own.

It appears likely to be of some service, if I here give a list of the manuscripts and printed books which have been used in the compilation of the work, accompanied by a short notice of such authorities as appear deserving of remark. It will be seen that the number and variety of these authorities is very great; and it may fairly be hoped that the very fact of their being

so dispersed and difficult of collection, will excuse the attempt to bring into one body all the documents whose contents were capable of throwing so much illustration upon the political and legal antiquities of this nation. For convenience, an alphabetical order has been followed, and to each authority is appended a list of the charters which have been derived from it.

These are the principal sources from which the contents of the preceding volumes have been taken, and it requires only a glance to convince any impartial person, how difficult it would have been to make any use of the charters while they remained dispersed in so many different repositories. This difficulty was greatly enhanced by the confused manner in which the documents are heaped together in the registers and chartularies, where no chronological order is ever thought of. Moreover, of the whole number of documents, about a fourth, and the boundaries of nearly all, are written in Anglosaxon, a language which is not sufficiently cultivated in England now, but which was still more neglected by the early Norman transcribers: to the difficulty then of non-access was added that arising from the careless writing of ignorant copyists. On all these grounds, therefore, it was much to be desired that a complete collection should be made, arranged in order of time, and in which the errors of the copyists should be corrected, as far as our present state of knowledge permitted. This I have attempted to accomplish; and though I am only too well aware how far removed from faultless the execution of the work has proved, I am not without hope that it will still be found no trifling boon to the legal antiquary and the philologist.

A few detached boundaries, found in MSS., but, not in immediate connexion with any charter, have been added to this volume, as well as an Appendix of Boundaries omitted in earlier numbers; and with the view of rendering the work more generally useful, a copious Index has been prepared, in which I hope all the local names of any importance will be found.

The pleasing duty now remains of offering the expression of my warmest thanks to those whose liberality and courtesy, by placing their valuable collections at my disposal, have rendered the completion of the plan possible: to the Universities of Cambridge and Oxford; the Deans and Chapters of Canterbury, Chichester, Ely, Westminster, Winchester, Worcester, and York; to my friends, the Officers of the different departments of the British Museum, whose knowledge and skill has ever been used for my aid with a readiness and zeal which I cannot gratefully enough acknowledge; to the Right Hon. Earl of Ilchester, Sir Thomas Phillipps, and Sir Edward Deering; to the Very Rev. the Master of Corpus Christi College, Cambridge; the Rev. S. R. Maitland, late librarian to his Grace the Archbishop of Canterbury; and the Rev. L. Larking of Ryarsh; to all, and singular in short, who during the progress of the work have, either by communication of their stores of materials, or by their advice and encouragement, assisted in its execution. And I am bound in justice to return my special thanks to Mr. H. C. Hamilton, of Her Majesty's State Paper Office, to whom I am indebted not only for many valuable suggestions, but for the untiring zeal and great ability with which he has executed the laborious tasks of transcribing and collating MSS. throughout the whole Collection. The public are also under great obligations to the gentlemen in Messrs. Bentley's Establishment, whose skill

and care have greatly lightened the toils of editing, and who have dealt in a most satisfactory manner with a work which presented difficulties of no ordinary character.

Some time will probably elapse before another volume of these Charters can be offered to the public: it is to be hoped, that, in libraries yet unransacked, in family archives yet unvisited, and in episcopal registers which have not yet been duly searched, similar materials for our early law and history lurk unrecognized, and that at some future period these will be brought to light, and supply us with the materials for a further Collection. I will venture to suggest to the owners of such archives, that nothing could add more to the value of their libraries than the discovery of ancient documents, such as these Saxon Charters; and it is possible that some are yet to be found among the muniments of those corporations or families which became the possessors of church-lands and property at the period of the Reformation. Experience has taught me, that even in collections which have been carefully arranged, and are duly treasured, fortunate diligence may meet with unexpected rewards; what then may not be expected from a careful enquiry in repositories which have not been arranged and searched with equal labour? In the meantime it will be my care to prepare other Indexes which may aid the student who desires to use these documents for historical purposes, and to render as perfect as I can the lists of Kings, Bishops, Dukes, and Abbots, and the general Fasti of the Anglo-saxon kingdoms: these tables, if they should prove to be executed with accuracy, and on a comprehensive scale, will not fail to be of service to all who take an interest in the antiquities of the English Commonwealth.

✠ ALTITHRONI moderatoris imperio triuiatim instruimur, ut illi oppido subiecti suppeditantes famulemur, qui totius mundi fabricam miro ineffabilique serie disponens microcosmum, Adam uidelicet, tandem quadriformi plasmatum materia, almo ad sui similitudinem instinctum spiramine, uniuersis quae in infimis formauerat, uno probandi causa excepto uetitoque, praeficiens, Paradisiacae amoenitatis iocunditate, collaterana Eua, scilicet comite, decentissime collocauit; laruarica pro dolor! seductus cauillatione, uersipellis suauisibilisque tergiuersatione uiraginis pellectus, anathematis alogia ambro pomum momordit uetitum, et sibi ac posteris in hoc aerumpnoso deiectus saeculo letum promeruit perpetuum. Uaticinantibus siquidem prophetis, et coelitus superni regis diuturna clandestino praesagia dogmate promentibus nitide orthodoxis; eulogium ex supernis deferens, non ut Iudaeorum seditiosa elingue fatetur loquacitas, sed priscorum atque modernorum lepidissimam ambiens facundiam, Arrianas Sabellianasque proterendo nenias anagogico infrustrans famine, nosque ab obtunsi coecitate umbraminis ad supernorum alacrimoniam patri-
moniorum aduocans, angelus supernis elapsus liminibus in aurem intemeratae uirginis, ut euuangelica promulgant famina, stupenda cecinisse uidetur carmina,

cui aecclesia tota, uidelicet catholica, consona uoce al-
tiboando proclamat, 'Beata es uirgo Maria quae credi-
disti; perficientur in te quae dicta sunt tibi a domino.'
Mirum dictu! incarnatur uerbum et incorporatur, sci-
licet illud, de quo euuangelista supereminens uniuerso-
rum altitudine sensuum inquit, 'In principio erat
uerbum, et uerbum erat apud deum, et deus erat
uerbum,' et reliqua. Qua, uidelicet, sumpta de uir-
gine incarnatione, antiquae uirginis facinus demitur,
et cunctis mulieribus nitidis praecluens taumatibus
decus irrogatur. Intacta igitur redolente Christi di-
uinitate, passaue ipsius humanitate, libertas addictis
clementer contigit seruulis. Hinc ego Eadgar, alti-
throno amminiculante, Anglorum caeterarumque gen-
tium in circuitu triuiatim persistentium basileus, ut
huius libertatis altithroni moderatoris clementia me-
rear obtinere consortium, rura quae olim a praede-
cessoribus nostris largita sunt, iniuste ab infidelibus
quondam abstracta, in Gæging uidelicet .x. mansas,
in Gosie .xv. in Weorðe .xxx. in Earmundes leah .v.
Abbandunensi aecclesiae restituens domino nostro
eiusque genitrici Mariae, ad usum monachorum inibi
degentium aeterna largitus sum haereditate. Gra-
tuita itidem domini gratia instinctus, monachis prae-
fato Abbandunensi regulariter degentibus, monastici
aeternam priuilegii ut praedecessores nostri concedo
libertatem, quatenus post decessum Æðeluuoldi abba-
tis aegregii, cuius temporibus haec libertatis restau-
ratio, Christo suffragante, concessa est, quem sibi uni-
uersa praefati coenobii congregatio apto elegerit con-
silio, secundum regularia beati Benedicti instituta,
abbatem iuste ex eodem fratrum cuneo eligens con-
stituatur. Huius priuilegii libertas deinceps usu per-
petuo a cunctis teneatur catholicis, nec extraneorum
quispiam, tyrannica fretus contumacia, in praedicto
monasterio ius arripiens exerceat potestatis, sed eius-
dem coenobii collegium perpetuae, ut praedixi, liber-

tatis gloriatur priuilegio. Sit autem praefatum monasterium omni terrenae seruitutis eodem tenore liberum, quo a praecessoribus nostris catholicis, a sancto Leone, uidelicet, papa et Coenulfo rege catholico, uetusto continetur priuilegio, Reduno abbate optinente solutum; agri equidem [qui] ad usus monachorum domino nostro Ihesu Christo eiusque genitrici Mariae priscis modernisque temporibus a regibus et religiosis utriusque sexus hominibus, et a meipso meoque patruo Eadredo rege fidelissimo, restituendo iure concessi sunt, eiusdem perpetualiter sint libertatis. Nam rex praefatus rus quod Abbandun nuncupatur, quod rex Ceadualla domino nostro eiusque genitrici Mariae priscis temporibus deuoto concesserat animo, in quo praedecessores nostri diabolica decepti auaritia aedificium regale sibi iniuste construxerant, aecclesiae dei restituens interdixit ut regum nemo inibi pastum requireret nec aedificium in sempiternum construeret. Quod ego Eadgar Anglorum basileus, optimatum meorum usus consilio, tam meis quam meorum successorum temporibus fixum in nomine patris et filii et spiritus sancti fieri in aeternum praecipio. Tempore siquidem quo rura quae domino deuoto concessa sunt animo iniuste a sancta dei aecclesia ablata fuerant, perfidi quique nouas sibi haereditarias kartas usurpantes ediderunt; sed in patris et filii et spiritus sancti nomine praecipimus ut catholicorum nemo easdem recipiat, sed a cunctis repudiatas fidelibus in anathemate deputentur, ueteri iugiter uigente priuilegio. Si quis uero tam epilepticus, philargyriae seductus amentia, quod non optamus, hanc nostrae munificentiae dapsilitatem ausu temerario infringere temptauerit, sit ipse alienatus a consortio sanctae dei aecclesiae, necnon et a participatione sacrosancti corporis et sanguinis Ihesu Christi filii dei, per quem totus terrarum orbis ab antiquo humani generis inimico liberatus est; et cum Iuda Christi proditore

sinistra in parte deputatus, nisi prius hic digna satisfactione humilis poenituerit quod contra sanctam dei aecclesiam rebellis agere praesumpsit, nec in uita hac practica ueniam, nec in theorica requiem apostata obtineat ullam, sed aeternis barathri incendiis trusus iugiter miserrimus crucietur. * DŪNSTĀN, APRIL 1st, 959.

✠ DUNSTANUS, dei misericordia, Londoniensis episcopus, omnibus episcopis, abbatibus, et cunctis ecclesiae filiis, praesentibus et futuris, in perpetuum. Quum, fratres karissimi, inimicus humani generis semper laborat superseminare zizania in agro dominicae sationis, et quos non potest incitare ad grauiora delicta plerumque de minimis occasionibus incendit ad lites et discordias, cauendum est, eis maxime qui in aecclesiasticis ordinibus eminere uidentur, ut publice ac priuatim, quanta uirtute possunt, amputent omnes occasiones per quas inter seruos dei scandala possunt oriri, ut quietam et tranquillam uitam agamur in caritate domini. Quapropter nouerit omnium catholicae ecclesiae cultorum generalis uniuersitas, quod dominus gloriosissimus Eadgarus Anglorum rex, diuina irradiatus lumine, religiosa petitione humilitatis nostrae extremitatem poposcit, propter frequentes monachorum et clericorum simulationes, ut et nos et canonicorum nostrorum communis fraternitas securitatis et incommutabilitatis priuilegium ederemus pro reuerentia summi apostolorum principis Petri, ad basilicam ipsius quae dicitur Westmonasterium, ubi reliquiae ipsius uirtutum miraculis coruscant, quamquam multo ante nos tempore, beatus papa Gregorius de eadem re sententiam tulerit, dicens inter alia; Interdicimus in nomine domini Ihesu Christi ex auctoritate beati Petri apostolorum principis cuius uice huic aecclesiae praesidemus, ut nullus episcoporum uel saecularium ulterius praesumat de redditibus, rebus, uel cartis monasteriorum, uel priuilegiis quae ad ea pertinent, quocumque modo seu qualibet occasione, uel tolos uel inmissiones facere; sed si qua forte occasio inter ea uenerit, et pacifice

non poterit ordinari, apud electos abbates et alios patres deum timentes, sine uoluntaria dilatione, mediis sacrosanctis euangeliiis finiatur. Inter post pauca; Missas quoque publicas ab episcopis in coenobiis fieri omnino prohibemus, ne in seruorum dei recessibus, et eorum receptaculis, ulla praebeatur occasio conuentus uel mulierum fiat nouus introitus, quod omnino non expedit animabus eorum; nec audeant ibi cathedram collocare uel quamlibet potestatem habere imperandi nec aliquam ordinationem, quamuis leuissimam, faciendi, nisi et abbate fuerint rogati, quatinus monachi semper maneant in abbatum suorum potestate: idem alio loco; Grauaminis et contra sacerdotale constat esse propositum, cuiusque monasterii priuilegia olim indulta confundere et ad irritum quae sunt pro quiete disposita niti deducere: item Leo papa, Marciano Augusto; Priuilegia monasteriorum sanctorum patrum auctoritate instituta nulla possunt improbitate conuelli, nulla nouitate mutari: item ex decretis Anacleti papae; Priuilegia monasteriorum intemerata et inuiolata perpetuis decreuimus manere temporibus: item beatus Augustinus in libro de aecclesiasticis ordinibus docet sub quiete monachos regulariter uiuentes sua singulari lege debere quiescere, et ab omni infestatione clericorum intrepidos permanere, ne saecularis strepitus eos laedat quos districta regula seruitutis domini moderatur: item ex concilio Hispalensi secundo; Statuimus pari sententia ut coenobia, quae antiquitus instituta sunt, immobili et inconcussa stabilitate permaneant solidata. Si quis autem, quod absit, nostrum uel succedentium sacerdotum quodlibet monasterium aut ui cupiditatis expoliandi aut simulatione aliqua fraudis conuellendi uel dissoluendi temptauerit, anathema effectus, maneat a regno dei extraneus, nec proficiat illi bonum fidei uel operis ad salutem qui tantae et tam salutaris uitae destruxerit tramitem. Hanc ergo scriptorum illorum sententiam considerantes, uel ideo

quia supradicti domini Eadgari regis petitio nobis quasi iussio est, cui difficillimum est resisti, seu pro reuerentia tanti apostoli, cuius patrocinio se ipse commisit, seu ut ipsis monachis secundum sanctum ordinem uiuere liceat et ut tam pro nobis quam pro omnibus aecclesiae nostrae fratribus deum orent, hoc priuilegium plena uoluntate una cum consensu fratrum meorum ipsis concessi, per quod decerno atque ob testificatione diuini nominis interdico, ut nec ego deinceps nec ullus successorum meorum episcoporum Londoniae hoc audeat infringere uel temerario ausu aliquatenus uiolare, uidelicet ut omnis presbyter uel clericus ex hiis qui in ipso procinctu beatissimi Petri, et omnes illi qui in circumscripto spacio, sicut designant cruces uel fossata uel alia signa, illi aecclesiae seruiunt, sint liberi et absoluti ab omni debito et redditione circadarum¹ et synodorum. Tamen uolumus, et pro amore uel reuerentia sancti Petri concedimus, ut ex nostro uel successorum nostrorum episcopatu sine precio crisma et oleum accipiant. Concedimus etiam illi loco cimiterium liberum, sicut et a regibus ab antiquis temporibus concessum fuerat, ita ut quicumque de quocunque loco uel cuiuscumque conditionis petierit se ibi sepeliri non impediatur uel prohibeatur, uel ab episcopo uel ab archidiacono uel a parochiano suo presbytero. Et si quis eorum presbyter uel clericus, forte, aut occisus, quod absit, aut uulneratus fuerit, aut ex eis omnibus alicuius iniuriae acclamatio surrexerit, quicquid ex hiis omnibus ad nos attinere uidetur, hoc totum abbati qui in ipso sancto loco praefuerit caeterisque fratribus habendum et disponendum concedimus. Si autem, quod absit, etiam de rebus eorum furtum fuerit factum, et abbati uel fratribus uisum fuerit ut examinatio ex hoc debeat agitari, habebunt licentiam accipiendi a nostro episcopatu benedictum ferrum, uel si qua alia sint instrumenta aut benedic-

tiones ad huiusmodi rem exercendam absque exactione precii a calumpniatore uel calumpniato intra procinctum monasterii tantum, sed extra efferendi ad uillas suas uel causas aliorum agendas non habebunt potestatem. Relaxamus etiam eos qui intra uillam ipsius procinctus commorantur a collecta denariorum quam romescoth appellant, sicut relaxatum est a regibus Offa et Kenulfo et Eadgaro, et omnia quae ad libertatem et exaltationem illius loci per nostram auctoritatem accedere possunt, hilari et prompta uoluntate concedimus. Nimirum cum ego illi sancto loco quasi multorum regum temporibus neglecto praefuerim, quem postea additis ei aliquantis terris uenerabili Wlsino eiusdem loci monacho commendauimus seruandum, quas scilicet terras hic denotare non omittimus. Inprimis circa illud monasterium .v. mansas a uenerabili rege Eadgaro .c.xx. mancusi auri, una cum loco emi, et cum redditibus et cum terris quas antiqui reges, scilicet Offa, Kenulfus, et Alfredus, illi sancto loco benigne dederant. Item .v. mansas in Blekinham, et .vi. in Lowereslege a praefato rege emi .x. mancusi auri et addidi monasterio praefato. Item mercatus sum a uenerabili Æðelwoldo Wintoniensi episcopo .x. mansas, et .x. a quodam Wlnoðo milite regis octoginta libris probati argenti, easque sub uno territorio addidi praefato monasterio in loco scilicet qui Hendune dicitur. Item tres cassatos emi a quodam Eadnoðo regis ministro .xii. libris in loco qui Codenhleaw nuncupatur, et addidi praedicto loco. Quidam autem minister regis in Middilsex mansitando Ælfwine uocitamine qui adiens limina sanctorum apostolorum Petri et Pauli Romae scilicet, et gratia inopiae petiit a me quoddam amminiculum, qui commodans ei .xxx. libras argenti suscepi ab eo .viii. mansas cuiusdam telluris in Hanewelle, et addidi loco saepenominato. Item .x. cassatos emi ab Ælfego duce ducentis mancusi auri in loco qui Sunnabiri dicitur et dedi praefato coenobio.

Et illam possessionem in Scepertune emi ab Ælfleda uidua .LX. bizanteis nummis, et dedi loco praescripto. Item Ælfhelm Wolga pro animae suae remedio .v. mansas largitus est coenobitis in Westminstre conuersantibus in loco qui Bricannidune uulgari uocitamine dicitur. Item Ælfwinus praefectus regis de Kent .III. cassatos coenobio praefato pro animula sua coniugisque largitus est in loco qui Schollingtune dicitur; et illa possessio in Perham post dies Wlnoði redeat ad praefatum coenobium quam ab eodem mercatus sum .XXX. mancusi auri. Et illud praediolum in Padingtune aecclesiae pradiatae addidi. Item praedium illud in Cofenlea praefatae aecclesiae adieci. Item praedium in Ewelle illi sancto loco in perpetuam perstrinxi possessionem.

Ego Eadgarus rex Anglorum huius libertatis donationem clementer tocius regimen gubernans episcopo Dunstano desiderante libenter concessi et signo sancto regiaeque potestate roborauī ✠ in Christi nomine sub horum testimonio quorum nomina flauescunt infra. ✠ Ego Dunstanus, acsi peccator et nomine tantum episcopus, hanc libertatis scedulam impressione sigilli nostri et annuli insuper et agalmate sanctae crucis diligenter consignauī; ac deinde manibus ad coelum extensis dixi, Si quis hanc munificentiae libertatem sanctum praedictumque locum, in terris, uel decimis, uel aliis redditibus, seu in aliquo, nostris et futuris temporibus meliorauerit uel adauxerit, augeat illi deus perpetuitatis beatitudinem, atque in nostris orationibus et benedictione ab omnibus peccatis suis absolutus foeliciter permaneat. Qui uero hanc nostram auctoritatem uel inuinitatem infringere uoluerit, uel alios ad hoc conduxerint, et tam ea quae praeteritis uel nostris temporibus sunt data quam ea quae in futuro a fidelibus danda sunt stolido conamine absumere cogitaerint, uel aliquod amminiculum, aut calices, aut cruces, seu indumenta altaris, uel sacros codices, aurum, ar-

gentum, uel qualemcunque speciem ibidem collatam eripere temptauerint, uel alios de rebus illius aecclesiae haereditauerint, fratribusque eiusdem loci uim inferre praesumpserint, uel eos iniuste contristauerint, necnon et hanc scedulam cartulasque regum uel aliorum fidelium ad defensionem et tuitionem loci ibidem data auferre seu euertere studuerint, ignibus aeternis cruciatibus perpetuis illos damus, maledicimus atque excommunicamus, portas coeli eis claudimus, et deleantur nomina eorum de libro uitae, sitque pars eorum cum Iuda domini traditore, nisi resipiscant et tribus annis a communione fratrum sequestrati poenitentiam agant. ✠ Ego Oswoldus Eborum aecclesiae archiepiscopus huius munificentiae conseruatores benedixi; contradictores uero perpetuo dampnaui dicens, Effundat dominus super eos iram suam, et furor irae suae comprehendat eos. ✠ Ego Ælfstanus Roffensis aecclesiae episcopus hanc libertatem augmentantes regi regum commendauit, destructores autem sic dicendo maledixi, Ueniat mors super illos, et descendant in inferum uiuentes. ✠ Ego Ælfagus Wintoniensis aecclesiae episcopus illius loci adauctores Ihesu Christo consignauit, inuasores nempe aeternis cruciatibus tradidi, dicens, Non sit illis pax, non misericordia, non pietas, sed terror infernorum, crudelitas poenarum, impietas cruciatuum. ✠ Ego Escwine episcopus Dorecensis aecclesiae hoc adieci, Erubescant destructores praesentis loci et conturbentur in saeculum saeculi et confundantur et pereant; benefactores autem in aeternum uiuant. ✠ Ego Æðulfus praesul Herefordensis aecclesiae hoc idem hoc dicens affirmauit, Maledicti sint raptores illius sanctae aecclesiae in omnibus operibus suis, et in omnibus uitiis suis, et in cunctis adinventionibus suis prauis; benefactores uero adeo benedicantur. ✠ Ego Æðelsinus episcopus Schiresburnensis aecclesiae supradicta sic conclusi, Quicumque inferior uel sublimior contra hunc libellum quic-

quam sinistrum audere praesumpserit, uiuus ad inferos raptus inter omnia perpetua mala in perpetuum dampnetur.

Anno ab incarnatione domini .DCCCC^{mo}.L^{mo}.IX^{no}. imperii autem gloriosi regis Eadgari .IIII. ego Ealdredus abbas hanc scedulam scripsi, kalendas Aprilis, episcopo Dunstano rogante, quam idem episcopus, Londoniae et Wigorniae necnon et totius Angliae decanus, super altare beati Petri in eadem aecclesia, quae manibus angelicis consecrata dinoscitur, optulit atque ibidem in aeuum propter iniquitates simulationesque futurorum atque inopinata mala quae saepe praedicebat futura eam seruari ad defensionem loci praecepit, indictione uero secunda.

EADWIG, May 17th, 959.

✠ ORTHODOXORUM uigoris aecclesiastici monitu creberrime instruimur, ut illi oppido subiecti suppeditantes famulemur, qui totius mundi fabricam miro ineffabilique serie disponens, microcosmum, Adam uidelicet, tandem quadriformi plasmatum materia almo ad sui similitudinem instinctum spiramine, uniuersis quae in infimis formauerat, uno probandi causa excepto uetitoque, praeficiens Paradisiacae amoenitatis iocunditate conlaterana Eua scilicet comite decentissime collocauit. Laruarica, pro dolor! seductus cauillatione, uersipellis suasibilisque tergiuersatione uiraginis pellectus anathematis alogia ambro pomum momordit uetitum, et sibi ac posteris, in hoc aerumnoso deiectus saeculo, letum promeruit perpetuum. Uaticinantibus siquidem prophetis, et coelitus superni regis diuturna clandestino praesagia dogmate promentibus nitide orthodoxis, eulogium ex supernis deferens: non ut Iudaeorum seditiosa elingue fatetur loqua-

citas; sed priscorum atque modernorum lepidissimam ambiens facundiam, Arrianas Sabellianasque prote-rendo naenias anagogico infrustrans famine, nosque ab obtunsi coecitate umbraminis ad supernorum alacrimoniam patrimoniorum aduocans, angelus supernis elapsus liminibus in aurem intemeratae uirginis, ut euuangelica promulgant famina, stupenda cecinisse uidetur carmina; cui aecclesia tota, uidelicet catholica, consona uoce altibohando proclamat, 'Beata es uirgo Maria quae credidisti, perficientur in te quae dicta sunt tibi a domino.' Mirum dictu! incarnatur uerbum, et incorporatur scilicet illud, de quo euuangelista supere-minens uniuersorum altitudine sensuum inquit; 'In principio erat uerbum, et uerbum erat apud deum, et deus erat uerbum,' et reliqua. Qua uidelicet sumpta de uirgine incarnatione antiquae uirginis facinus demitur, et cunctis mulieribus nitidis praecluens taumati-bus decus irrogatur. Intacta igitur redolente Christi diuinitate, passaue ipsius humanitate, libertas ad-dictis clementer contigit seruulis. Hinc ego Eadwig altithrono amminiculante Anglorum, caeterarumque gentium in circuitu triuiatim persistentium basileus, ut huius libertatis altithroni moderatoris clementia mercear optinere consortium, coenobio loco celebri qui ab huius prosapiae solicolis Æbbandun nobili nuncu-patur uocabulo situm, genitricique domini nostri sem-per uirgini Mariae, necnon beato Petro apostolorum principi eiusque coapostolo Paulo dedicatum habetur, monachis regulariter degentibus monastici aeternam, priuilegii concedo libertatem, quatenus post decessum Æðeluuoldi abbatis egregii, cuius temporibus haec libertatis restauratio Christo suffragante concessa est, quem sibi uniuersa praefati coenobii congregatio apto elegerit consilio, secundum regularia beati Bene-dicti instituta, abbatem, iuste ex eodem fratrum cuneo eligens constituat. Huius priuilegii libertas deinceps usu perpetuo a cunctis teneatur catholicis, nec extra-

neorum quispiam tyrannica fretus contumacia in praedicto monasterio ius arripiens exerceat potestatis, sed eiusdem coenobii collegium perpetuae ut praedixi libertatis gloriatur priuilegio. Sit autem praefatum monasterium omni terrenae seruitutis eodem tenore liberum, quo a praecessoribus nostris catholicis, a sancto Leone uidelicet papa, et Coenulfo rege catholico, uetusto continetur priuilegio Reðuno abbate obtinente solutum; agri equidem [qui] ad usus monachorum domino nostro Ihesu Christo eiusque genitrici Mariae priscis modernisque temporibus a regibus et religiosis utriusque sexus hominibus, et a meipso meoque patruo Eadredo rege fidelissimo restituendo iure concessi sunt, eiusdem perpetualiter sint libertatis. Nam rex praefatus, rus quod Abbendun nuncupatur, quod rex Ceadwala domino nostro eiusque genitrici Mariae priscis temporibus deuoto concesserat animo, in quo praedecessores nostri, diabolica decepti auaritia, aedificium regale sibi iniuste construxerant, aecclesiae dei restituens, interdixit ut regum nemo inibi pastum requireret, nec aedificium in sempiternum construeret; quod ego Eadwig Anglorum basileus, optimatum meorum usus consilio, tam meis quam meorum successorum temporibus fixum in nomine patris et filii et spiritus sancti fieri in aeternum praecipio. Si quis uero tam epilepticus, philargyriae seductus amentia, quod non optamus, hanc nostrae munificentiae dapsilitatem ausu temerario infringere temptauerit, sit ipse alienatus a consortio sanctae dei aecclesiae, necnon et a participatione sacrosancti corporis et sanguinis Ihesu Christi filii dei, per quem totus terrarum orbis ab antiquo humani generis inimico liberatus est; et cum Iuda Christi proditore sinistra in parte deputatus, nisi prius hic digna satisfactione humilis poenituerit quod contra sanctam dei aecclesiam rebellis agere praesumpsit, nec in uita hac practica ueniam, nec in theorica requiem apostata

obtineat ullam, sed aeternis barathri incendiis trusus cum Anania et Saphira iugiter miserrimus crucietur. EÁDGÍFU, 961.

✠ ANNO dominicae incarnationis .DCCCC.LXI. Ego
 Eadgyua regina et mater Eadmundi et Eadredi regum,
 pro salute animae meae, concedo aecclesiae Christi in
 Dorobernia monachis ibidem deo seruientibus has
 terras, Meapeham, Culinges, Leanham, Peccham,
 Fernlege, Munccetun, Ealdintun, liberas ab omni sae-
 culari grauitate, exceptis tribus, pontis et arcis con-
 structione, expeditione. Qualiter autem istae terrae
 michi uenerunt, operae pretium duxi intimare omnibus,
 scilicet Odoni archisacerdoti tociusque Britanniae
 primati, et familiae Christi, id est monachis in Doro-
 bernia ciuitate. Contigit aliquando patrem meum
 Sigelmum habere necessitatem .xxx. librarum quas a
 quodam principe nomine Goda mutuo accepit, et pro
 uadimonio eidem dedit terram quae nominatur Cu-
 linges, qui tenuit eam septem annis. Septimo itaque
 anno expeditio praeparabatur per omnem Cantiam,

¹ Comp. CCCCXCIX.

cum qua Sigelmum patrem meum ire oportuit; cum uero se pararet uenerunt illi in mente .xxx. librae quas Godae debebat, quas statim ei reddere fecit. Et quia nec filium nec filiam nisi me habuit, haeredem me fecit illius terrae et omnium terrarum suarum, et libros michi dedit. Forte tunc euenit patrem meum in bello cecidisse; postquam autem idem Goda audiuit defunctum in bello esse, negauit sibi triginta libras persolutas fuisse, terramque quam pro uadimonio a patre meo accepit detinuit fere per sex annos. Sexto uero anno quidam propinquus meus nomine Byrhsige Dyring coepit instanter aperte conqueri apud optimates et principes et sapientes regni de iniuria propinqua suae a Godone facta. Optimates autem et sapientes pro iusticia inuenerunt, et iusto iudicio decreuerunt quod ego, quae filia et haeres eius sum, patrem meum purgare deberem, uidelicet sacramento, .xxx. librarum, easdem triginta libras patrem meum persoluisse; quod, teste toto regno, apud Agelesford peregi; sed non tunc quidem potui terram meam habere, quoadusque amici mei regem Eaduardum adierunt, et illum pro eadem terra requisierunt. Qui uidelicet rex eidem Godoni, super omnem honorem quem de rege tenuit, praedictam terram interdixit, sicque terram dimisit. Non multo autem post tempore contigit eundem Godonem coram rege ita inculpari, quod per iudicium iudicatus sit perdere omnia quae de rege tenuit, uitamque eius esse in iudicio regis. Rex autem dedit eundem michi et omnia sua cum libris omnium terrarum suarum, ut de eo facerem secundum quod promeruit. Ego autem pro timore dei non ausa fui reddere ei secundum quod contra me promeruit, sed reddidi ei omnes terras suas excepta terra duorum aratrorum apud Osterland; libros autem terrarum non reddidi ei, probare enim uolui quam fidem de beneficio contra tot iniurias michi ab eo illatas tenere uellet. Defuncto autem domino meo rege Eaduardo, Æðel-

stanus filius suscepit regnum, quem uidelicet regem requisiiuit idem Godo, ut pro eo me rogaret quatinus ei redderem libros terrarum suarum. Ego autem libenter, deuicta amore, uidelicet regis Æðelstani, ei omnes libros terrarum suarum reddidi, excepto libro de Osterlande, quem scilicet humiliter bona uoluntate dimisit. Insuper pro se et omnibus parentibus suis, natis et nondum natis, nuncquam quaeremoniam facturos de praedicta terra, secum acceptis undecim comparibus suis, michi sacramentum fecit. Hoc autem factum est in loco qui nominatur Hamme iuxta Læwes. Ego autem Eadgyua habui terram cum libro de Osterlande diebus duorum regum Æðelstani et Eadmundi filiorum meorum; Eadredo quoque rege filio meo defuncto, despoliata sum omnibus terris meis et rebus. Duo quoque filii iam saepenominati Godonis, Leofstanus et Leofricus, abstulerunt michi duas superius nominatas terras Culinges et Osterlande, ueneruntque ad puerum Eadunium, qui tunc nouiter leuatus est in regem, et dixerunt se maiorem iusticiam in illis terris habere quam ego. Remansi ergo illis terris et omnibus aliis priuata usque ad tempora Eadgari regis. Qui cum audisset me ita dehonestatam ac despoliatam, congregatis principibus et sapientibus Angliae, intellexit enim me cum magna iniusticia rebus et terris meis despoliatam, idem rex Eadgarus restituit mihi terras meas et omnia mea. Ego autem licentia et consensu illius testimonioque omnium episcoporum et optimatum suorum, omnes terras meas et libros terrarum propria manu mea posui super altare Christi quae sita est in Dorobernia. Si quis hanc meam donationem a iure praedictae ecclesiae auferre conatus fuerit, auferat ei omnipotens deus regnum suum.

Confirmatio. Ego Æðelredus, dei opitulante misericordia totius Anglicae gentis regimen tenendo, priuilegiis auditis ueter[a]norum sapientum, cordis tactus compunctione, archipraesulis exhortatione Alfrici, ad

animae commodum deputamus nostrae, quin praecessorum nostrorum decreto firmemus, hoc aeternaliter statuentes ut impii quique a privilegiis praedictis Christo tonanti quid auferentes, sub anathemate in aeternum cum diabolo puniantur. Qui uero hanc libertatem augendo firmauerit illaesam, piissimo liberetur a domino, cum nouissima insonuerit tuba, reddens cuique secundum opera sua.

✠ DOMINO meo karissimo regi Anglorum Eadgaro, ego Oswaldus Uigornensis aecclesiae episcopus omnium quae mihi per ipsius clementiam munerum tradita sunt, apud deum et apud homines gratias ago. Igitur si dei misericordia suppetit, coram deo et hominibus perpetualiter ei fidelis permanebo, reminiscens cum gratiarum actione largifluae benignitatis eius, quia per meos illud quod magnopere expetebam mihi concessit internuntios, id est reuerentissimum Dunstanum archiepiscopum et uenerandum Æðeluuoldum Uintoniae episcopum et uirum magnificum Brihtnoðum comitem, quorum legatione et adiutorio meam et sanctae dei aecclesiae querelam suscepit, et secundum consilium sapientum et principum suorum iuste emendauit, ad sustentamen aecclesiae quam mihi benigne et libens regendam commisit. Quare quo modo fidos mihi subditos telluribus quae meae traditae sunt potestati per spatium temporis trium hominum, id est duorum post se haeredum, condonarem, placuit tam mihi quam ipsis fautoribus et consiliariis meis, cum ipsius domini mei regis licentia et attestazione, ut fratribus meis successoribus, scilicet episcopis, per cyrographi cautionem apertius enuclearem, ut sciant quid ab eis extorquere iuste debeant secundum conuentionem cum eis factam et sponsionem suam; unde et hanc epistolam ob cautelae causam componere studui, ne quis malignae cupiditatis instinctu hoc sequenti tempore mutare uolens, abiurare a seruitio aecclesiae queat. Haec itaque conuentio cum eis facta est, ipso domino meo rege annuente, et sua attestazione munificentiae suae largitatem roborante et confirmante, omnibusque ipsius regiminis sapientibus et principibus attestantibus et consentientibus. Hoc pacto eis terras sanctae aec-

clesiae sub me tenere concessi: hoc est ut omnis equitandi lex ab eis impleatur quae ad equites pertinet; et ut pleniter persoluant omnia quae ad ius ipsius aecclesiae iuste competunt, scilicet ea quae Anglice dicuntur ciricsceott et toll id est theloneum et tace, id est swinsceade, et caetera iura aecclesiae, nisi episcopus quid alicui eorum perdonare uoluerit; seseque quamdiu ipsas terras tenent in mandatis pontificis humiliter cum omni subiectione perseuerare etiam iureiurando affirmant. Super haec etiam ad omnis industriae episcopi indigentiam semetipsos praesto impendant; equos praestent; ipsi equitent; et ad totum piramiticum opus aecclesiae calcis atque ad pontis aedificium ultro inueniantur parati; sed et uenationis sepem domini episcopi ultronei ad aedificandum repperiantur, suaque quandocumque domino episcopo libuerit uenabula destinent uenatum; insuper ad multas alias indigentiae causas quibus opus est domino antistiti saepe frunisci, siue ad suum seruitium siue ad regale explendum, semper illius archiductoris dominatui et uoluntati qui episcopatui praesidet, propter beneficium quod illis praestitum est, cum omni humilitate et subiectione subditi fiant, secundum ipsius uoluntatem et terrarum quas quisque possidet quantitatem. Decurso autem praefati temporis curriculo, uidelicet duorum post eos qui eas modo possident haeredum uitae spatio, in ipsius antistitis sit arbitrio quid inde uelit, et quomodo si uelle sit inde ita stet, siue ad suum opus eas retinere, si sic sibi utile iudicauerit, siue eas alicui diutius praestare, si sic sibi placuerit uelit; ita dumtaxat ut semper aecclesiae seruitia pleniter ut praefati sumus inde persoluantur. Ast si quid praefatorum delicti praeuaricantis causa defuerit iurum, praeuaricationis delictum secundum quod praesulis ius est emendet, aut illo quo antea potitus est dono et terra careat. Si quis uero, diabolo instigante, quod minime optamus, extiterit, qui per nostrum beneficium aecclesiam dei fraude,

seu in sua possessione aut seruitio debito priuare temptauerit, ipse nostra omnique benedictione dei et sanctorum eius priuetur, nisi profundissima emendatione illud corrigere studeat et ad pristinum statum quod defraudauit redigat, scriptum est enim, 'Raptores et sacrilegi regnum dei non consequentur.' Nunc autem propter deum et sanctam Mariam, in cuius nomine hoc monasterium dicatum est, moneo et praecipio, ut nullo modo quis hoc praeuaricare audeat, sed sicut a nobis statutum est, ut praefati sumus, perpetualiter maneat. Qui custodierit, omni benedictione repleatur; qui uero infringerit, maledicetur a domino et ab omnibus sanctis, Amen. Gratanter, reuerentissime domine, quo tantis tuae donis clementiae, secundum quod totius creatoris cosmi est uelle, praeditus sum, meae operam uoluntatis, ut pro te tuisque deum iugiter interpellem, deuotus impendam, meosque successores ad hoc hortari studebo, ut domini misericordiam pro te deprecari non desinant, ut Christus pace qui perhenni regnat aethrali in arce te consortio dignum haberi dignetur sanctorum omnium in aula coelesti. Valeat in aeuum qui hoc studuerit seruare decretum. Harum textus epistolarum tres sunt ad praetitutionem et ad signum, una in ipsa ciuitate quae uocatur Uuigraceaster, altera cum uenerabili Dunstano archiepiscopo in Cantuaria, tertia cum Æðeluuoldo episcopo in Uuintonia ciuitate.

✠ AETERNI gubernacula imperii moderante in perpetuum domino et saluatore nostro Ihesu Christo! Certissimis pupillarum optutibus quadripartiti mundi cotidie magis ac magis imminere cernitur occasus; qui quamuis crescendo decrescat et augmentando minuatur, fidelibus tamen diuinitus est concessum, ut nequaquam toti cum deficiente deficiant, sed per umbratilis substantiae mercimonium permanentem sibi thesaurizent in coelis thesaurum, quo, iuxta illud dominici promissi, 'Fur non appropriat, neque tinea corrumpit.' Aecclesiae uero catholicae auctoritas iugis et indefessa optamus ut permaneat; ad sacra autem sanctuaria in domini gazophylacio diuersa iubentur iactari ac offerri exenia, quia regi nato coelorum ut scriptum est, 'Reges terrae munera obtulerunt.' Unde ego Æselredus rex non incognitum uolo esse omnibus mihi genuflectentibus quod ad sanctuarium Abbandunensis monasterii, obtinente uidelicet Wulfgaro abbate, offerens largior .v. mansorum culturas .iii. in uilla Drægtun .ii. in Suttun, cum uno molenino, campos, pascua, prata, in perpetuae haereditatis iure, sicut Wulfgarus, meus uidelicet pincerna, obtinuit. Huius autem ruricolae telluris praeciens praecipio ut permaneant liberi, segregatis tribus causis, expeditione scilicet hostili, fundatione regiae arcis, restauratione pontis. Si quis uero inuidus ignicomis philargyriae flammis accensus, huic ueridico libellulo alium circum-attractum cupiditatis fallacia libellulum superimponere conatus fuerit, sit anathema maranata, hoc est, alienatio a consortio christianorum, donec resipiscens poeniteat quod in inuidiae fallacis liuore probauerat. ✠ REGNANTE in perpetuum deo et domino nostro Ihesu Christo! Quamuis ubique per uniuersum mundum merita beatorum martyrum diuinis celebranda sint praeconiis, eorumque suffragia qui pro Christi nomine sanguinem suum fuderunt totis nisibus amplectenda, Anglorum tamen populis intra ambitum Britanniae constitutis specialiter est honoranda beati martyris Albani gloriosa uictoria, qui et ipse pro Christo martyrium subiit, et hanc gentem rosei sanguinis effusione consecrauit. Quapropter ego Æðelredus tocius Albionis, superna largiente gratia, basileus, ut in tremendo magni iudicii die sanctorum patrociniis interuenientibus superni regni cohaeres existere merear, trium possessionem terrarum deo om-

nipotenti ad monasterium praefati martyris aeternaliter possidendam concedo, quarum duae simul adiacent, hoc est æt Norðtune et una mansa æt Rodanhangron, tertia uero seorsum sita usitato uocabulo æt Oxangehæge nominatur. Harum quidem terrarum portionem Offa rex Merciorum quondam regali iure possedit, eamque ad praedictum monasterium pro amore tanti martyris qui inibi requiescit aeterna lege liberam concessit. Sed eo postmodum defuncto, per potentiam quorundam iniquorum uiolenter abstracta est et tamdiu ab ipso loco iniuste exclusa, donec tandem fieret a Leofsino duce possessa; qui dum, culpa sua exigente, patria pulsus exularet, Ælfricus mihi fidelis archiepiscopus et Leofricus abbas frater eius eandem portionem dato pretio, me concedente, emerunt, et ut deo quae dei erant restituerem rogatu humillimae deuotionis obtinuerunt. Post obitum uero nominati superius archiepiscopi interpellante fratre ipsius hanc cartam meae donationis et renouationis scribere iussi; in qua praecipio, tam mea quam dei omnipotentis auctoritate, ut nulla altior inferiorue persona cuiuscumque sit dignitatis, hanc portionem sancto martyri subtrahere qualibet occasione praesumat, siue in meis siue successorum meorum temporibus, sed permanente iugiter et praeualente restitutionis huiusce priuilegio, omnia contrariorum molimina adnullentur. Sitque praedicta terrarum possessio perpetualiter ea libertate donata, qua memoratus rex Merciorum tam coenobium sancti Albani quam omnes quas illuc intromisit possessiones omni deuotione ditauit, tribus exceptis, rata expeditione, pontis arcisue restauratione; caeterum cuncta ad se pertinentia, campi, pascua, prata, siluae, et reliqua, libera permaneant. Si quis igitur haec decreta uiolare praesumpserit, omnipotentis dei et omnium sanctorum meaque et omnium christianorum benedictione careat, et aeterna maledictione damnatus intereat, nisi digne citius emendauerit quod contra deum et sanctum

martyrem eius Albanum deliquit. Hi sunt fines quibus earundem possessio terrarum gyratur. Anno dominicae incarnationis millesimo septimo, indictione .v. scripta est huius munificentiae scedula, his testibus consciis quorum haec nomina sunt.

ÆDELRED.

✠ REGNANTE in perpetuum domino nostro Ihesu Christo omniumque regna saeculorum magni moderaminis imperio gubernante! Ego Æðelred ipsius opitulante gratia rex Anglorum inter uarias huius labentis saeculi uicissitudines ad memoriam reduxi qualiter in tempore pueritiae meae erga me gestum fuerit, dum pater meus rex Eadgar, uniuersae terrae uiam ingre-

diens, senex et plenus dierum migravit ad dominum; quod uidelicet omnes utriusque ordinis optimates ad regni gubernacula moderanda fratrem meum Ead-uardum unanimiter elegerunt, mihiq[ue] terras ad regios pertinentes filios in meos usus tradiderunt. Ex quibus scilicet terris quasdam pater meus dum regnaret omnipotenti Christo eiusque genitrici sanctae Mariae ad monasterium quod Abbandun nuncupatur pro redemptione animae suae concessit, hoc est Bede-uide cum omnibus ad se pertinentibus, Hisseburna cum uniuersis suis appendicibus, Burhbec omnesque sibi adiacentes redditus. Quae statim terrae iuxta decretum et praeceptionem cunctorum optimatum de praefato sancto coenobio uiolenter abstractae, meaeque ditioni hisdem praecipientibus sunt subactae; quam rem si iuste aut iniuste fecerint ipsi sciant. Deinde cum frater meus hoc aerumpnosum deseruit saeculum et sibi a deo praedestinatum percepit interminabilis uitae emolumentum, ego annuente Christo et regalium simul et ad regios filios pertinentium terrarum suscepi dominium. Nunc autem quia mihi uidetur esse ualde molestum patris mei incurrere et portare maledictum, retinendo hoc quod ipse pro suae animae redemptione deo contulit donarium, et quia gratia dei me ad intelligibilem perducere dignata est aetatem, mihiq[ue] per meorum optimatum decreta affluentem et copiosam terrarum largita est portionem, iccirco et ego ex mea propria haereditate praefatum sanctum coenobium munere congruo honorare et oportuna possessionum largitione ditare dispono; primum pro dei omnipotentis eiusque sanctae genitricis amore, ut ipsa pro me pia interuentrix esse dignetur ad dominum deum nostrum, deinde pro animae genitoris mei dilectione, meaeque propriae animae aeterna redemptione, necnon et pro meorum causa liberorum qui easdem praefatas sibi attrahere suaeque ditioni cogitant subiicere terras. Nomina uero terrarum quas ad praefatum libenti

animo concedo monasterium haec sunt. Unum scilicet apud Feornebeorh, alterum apud Wilmaleahtun, tertium apud Cyrne. Has terrarum portiones Ælfric cognomento Puer a quadam uidua Eadflæd appellata uiolenter abstraxit, ac deinde cum in ducatu suo contra me et contra omnem gentem meam reus existeret, et hae quas praenominavi portiones et uniuersae quas possederat terrarum possessiones meae subactae sunt ditioni, quando ad synodale concilium ad Cyrneceastre uniuersi optimates mei simul in unum conuenerunt et eundem Ælfricum maiestatis reum de hac patria profugum expulerunt, et uniuersa ab illo possessa mihi iure possidenda omnes unanimo consensu decreuerunt. Deinde praefatam uiduam, pro amore optimatum meorum qui eius apud me extiterant aduocati, suam haereditatem possidere clementi benignitate permisi, et ipsa tandem in extrema suae migrationis sententia mihi rursus earundem terrarum possessionem benigno et libenti animo in perhennem dereliquit haereditatem. Tellurem uero ad Pyrian quam etiam ad idem praefatum concedo monasterium, unam illarum constat esse terrarum quas Æðelward Ceolfledae filius mihi aeternaliter possidendas pro mea donauit amicitia. Omni uulgo longe lateque satis est cognitum qualiter ipse et frater eius contra me rei extiterint, qualiterque ambo meam inimicitiam exigentibus suis reatibus incurrerint. Haec praefatarum descriptio terrarum facta est per admonitionem Ordulfi auunculi mei, atque Æðelmari consanguinitate mihi conglutinati, et Wlfgati ministri mei dilecti, necnon et abbatis mei Wlfgari tota mihi deuotione benigni, qui me frequenti suggestionem cum caeterorum fidelium commonuit suasionem quatinus dei omnipotentis haereditatem ex aliqua parte innouare et augere curarem; quod et feci propter Christi, qui me in regno sublimauit, amorem, et eorum qui me amica assiduitate ad meam exhortantur necessariam et aeternam salutem, et propter humilem et

benignam quam mihi praefatus abba fideliter et grantanter exhibere solet obedientiam. Hoc quoque uoluntatis meae beneficium palam cunctis innotesco, quod earundem possessionum terras in unaquaque cui adiacent prouincia cum omnibus ad se pertinentibus siue in praediorum municipiis, siue in tributo, siue in thelonio, siue in quocumque negotio quod in unoquoque rure diuerso modo solet exigi, plena libertate ab omni terrenae seruitutis iugo liberas esse concedo, quemadmodum pater meus supranominatarum portionem terrarum ab uniuersa mundanarum rerum seruitute liberas esse concessit, exceptis tribus, rata uidelicet expeditione, pontis arcisue restauratione. Illud etiam cum sanctae trinitatis et indiuiduae unitatis et beatae Mariae semper uirginis auctoritate praecipio, ut nullus hominum praesumat hanc donationem occasione qualibet immutare nec territorii codicem uel cirographi dictatum contra meae munificentiae scripta in medium proferre, sed uniuersa illa antiqua territoria, supradicto exigente reatu, semper in posterum pro nichilo computentur, et ad nichilum redacta omnium sputis obnoxia conculcentur, et huius priuilegii decreta stabili et inconcussa soliditate roborentur. Si quis autem, instigante diabolo, haec consulta tam mea quam diuina auctoritate corroborata uiolare praesumpserit, siue meus sit filius, siue dux, siue episcopus, siue minister, aut cuiuscumque dignitatis extiterit, omnipotens deus sanctaque eius genitrix semperque uirgo Maria, et omnis supernorum sancta uirtus exercituum maiestatem diuinam incessabili uoce laudantium, hunc in uita ista despiciat, et despectum in futuro saeculo sine fine disperdat illum, nisi congrua satisfactione ante exitum suum emendauerit quod contra deum sanctamque Mariam deliquit. Amen. Huius priuilegii descriptio iugiter in praenominato conseruetur monasterio ut sit libertas externa librorum ad uniuersas supradictarum possessiones terrarum quas omni-

potenti deo eiusque sanctae genitrici Mariae ad idem coenobium benigno et libenti animo concessi, et concessas aeterna stabilitate commendavi.

✠ REGNANTE domino nostro Ihesu Christo imperpetuum! ✠ SACRAE NOS catholicorum patrum per quos dei spiritus est locutus admonent scripturae, ut despicientes terrena concupiscamus coelestia; dum transeuntis saeculi uicissitudo per dierum incrementa crescendo decrescit et ampliando minuitur, et nil penitus prodesse homini lucrari mundum nisi per temporalia commutauerit aeterna, quum uelut umbra praesens computatur uita ad futuram quae in nobis reuelabitur gloriam. Quapropter ego Eadwardus, regis regum dei praedestinatione, Anglorum rex et dominum habens, dilecto mihi archiepiscopo Eadzino quandam haereditatis meae tradidi partem in plaga orientali, terram uidelicet unius aratri cui incolae eiusdem prouinciae usu antiquo Lytleburnan nomen indiderunt, ut habeat et possideat ac secundum proprium libitum habeatur et fruatur; postque ipsius uitae discessum cui sibi placuerit haeredi in perhenni possessione derelinquat. Sit etiam eadem terra ab omni seruitutis obstaculo libera, excepto quod in regali contra hostes expeditione, uel pontis constructione, seu in arcis reaedificatione, exhibeat supplementum. Si quis autem, quod absit, uesana mente tumidus, huic nostrae donationi emulator existens eam infringere temptauerit, multiplicentur in eo omnes plagae quas dominus intulit Egiptiis, ac perpetuis subiciatur maledictionibus, nisi poenitens resipiscat et

emendauerit. Istis terminis praedicta terra circumgyratur.

*EÁDGÁR, Wednesday, Dec. 28th, 964.

✠ ALTITONANTIS dei largiflua clementia, qui est rex regum et dominus dominantium, ego Eadgarus Anglorum basileus, omniumque regum insularum oceani quae Brytanniam circumiacent, cunctarumque nationum quae infra eam includuntur, imperator et dominus, gratias ago ipsi deo omnipotenti, regi meo, qui meum imperium sic ampliauit et exaltauit super regnum patrum meorum; qui licet monarchiam totius Angliae adepti sint a tempore Æðelstani, qui primus regum Anglorum omnes nationes quae Brytanniam incolunt sibi armis subegit, nullus tamen eorum ultra eius fines imperium suum dilatare aggressus est; mihi autem concessit propitia diuinitas, cum Anglorum imperio, omnia regna insularum oceani cum suis ferocissimis regibus usque Norregiam, maximamque partem Hiberniae cum sua nobilissima ciuitate Dublina, Anglorum regno subiugare: quos etiam omnes meis imperiis colla subdere, dei fauente gratia, coegi. Quapropter et ego Christi gloriam et laudem in regno meo exaltare, et eius seruitium amplificare, deuotus disposui: et per meos fideles fautores, Dunstanum uidelicet archiepiscopum, et Æðelwoldum ac Oswaldum episcopos, quos in patres spirituales et consiliatores elegi, magna ex parte, secundum quod disposui, perfeci. Siquidem temporibus antecessorum meorum regum Anglorum, monasteria tam monachorum quam uirginum destructa et penitus neglecta in tota Anglia erant, quae ego ad dei laudem pro remedio animae meae reparare, et seruorum et ancillarum dei numerum multiplicare, deuoui. Et ipsis supradictis meis cooperantibus strenue annitentibus iam .XL. et .VII. monasteria cum monachis et

sanctimonialibus constitui; et si Christus mihi tamdiu uitam concesserit, usque ad quinquagesimum remissionis numerum meae deuotae deo munificentiae oblationem protendere decreui. Unde nunc in praesenti monasterium quod praedictus reuerendus episcopus Oswaldus in sede episcopali Weorceceastre in honore sanctae dei genitricis Mariae, amplificauit, et, eliminatis clericorum naeniis et spurcis lasciuiis, religiosis dei seruis monachis, meo consensu et fauore suffultus, locauit; ego ipsis monasticae religionis uiris regali auctoritate confirmo, et consilio et astipulatione principum et optimatum meorum corrobore et consigno, ita ut iam amplius non sit fas neque ius clericis reclamandi quicquam inde; quippe qui magis elegerunt, cum sui ordinis periculo et aecclesiastici beneficii dispendio, suis uxoribus adhaerere quam deo caste et canonice seruire. Et ideo cuncta quae illi de aecclesia possederant cum ipsa aecclesia, siue aecclesiastica siue saecularia, tam mobilia quam immobilia ipsis dei seruis monachis ab hac die perpetualiter regiae munificentiae iure deinceps possidenda trado et consigno, ita firmiter ut nulli principum, nec etiam ulli episcopo succedenti fas sit aut licitum quicquid [inde] subtrahere, aut peruadere, aut ab eorum potestate surripere, [et in] clericorum ius iterum traducere, quandiu fides christiana [in Ang]lia perdurauerit. Sed et dimidium centuriatum quod Anglice uocatur Cuðburgehl[awes h]undred, ad quod iacent .L. hidae in Croppeðorne, [quas] Offa rex Merciorum quondam familiae in Weogereceastre donauit, liberas ab om[ni re]gali exactione, ego ipsis dei seruis cum eadem libertate [trado et con]scribo. Insuper etiam ad supplendum ipsum centuriatum, id est hundred, ut ex [m]eo dono illud plenum habeant, terras ipsius aecclesiae quae hactenus regiae exactioni subiacebant, ab hac die in perpetuum liberabo et liberas esse concedo et praecipio; eas uidelicet quae sunt ultra Auene flumen, quae istis uocabulis nominantur,

Uerabreodun cum Peonedoc, Teotintun cum Myttune, Secgesbearuwe, et in monte Wiccisca, Norðwica, Eowenland, Dæiglæsford, et Dorene, et Iccacumb, et in ripa Sturæ fluminis Scepwæsctun, et ibi iuxta eam Blacwælle, et in occidentali parte Sabrinae Grimanlæge cum Wittlæge, et Cnihtawice, et Hallege cum sibi pertinentibus; et item Herefordtun iuxta Auene, pro supplendo, ut supradiximus, centuriatu, id est hundred, deo et sanctae dei genitrici Mariae, ad usus seruorum eius, monachorum scilicet, liberas dono, et quietas esse praecipio deinceps et in perpetuum ab omnibus saecularium rerum oneribus, duris et leuibus, et ab omni seruitute et exactionibus fiscalibus, magnis et modicis, notis et ignotis, tam regis quam principis et ministrorum atque exactorum eorum, exceptis pontis et arcis constructione et expeditione contra hostem. Habeatque Winsinus reuerendus sacerdos quem ipse episcopus Oswaldus, me fauente et auctoritatem regiam praestante, in sede episcopali monachis praeposuit, quandiu ipse uixerit, omnesque post eum sui successores qui eidem congregationi praepositi fuerint, ipsum hundred cum omnibus debitis, quae rex antea in eo habuit, et ius et potestatem earundem possessionum, cum tolle et teame, saca et socne, et infangeneðeof, et proprii iuris debitum transgressionis, et poenam delicti quae Anglice dicitur ofersæwnesse, et gyltwyte, nec sit fas aut potestas cuiquam praepositorum seu exactorum uel ministrorum meorum, nec alicui principi uel ex succedentium numero pontifici, hanc meae munificentiae libertatem et concessionis firmitatem in aliquo minuere, uel infringere, uel quoquo modo mutare aut peruadere, aut quocunque ingenio ipsos monachos dei seruos inquietando perturbare, ut aliqua fraudulenta occasione iterum in clericorum aut ipsius episcopi proprium transeant ius, ab ipsorum potestate quorum usui ista concessi et donauit. Prouidi etiam cautelae studio ut haec libertas firmitus eis posset perdurare,

ne cum regis ministris aut eius centuriatus, id est hundredes, exactoribus, naumachiae expeditionem quae ex tota Anglia regi inuenitur faciunt: sed cum suo archiductore, uidelicet episcopo, qui eos defendere et protegere debet ab omni perturbatione et inquietudine. Et quia idem reuerendus antistes Oswaldus per suos amicos et meos consiliarios supranominatos, uidelicet Dunstanum archiepiscopum, et Æðelwoldum episcopum et uirum magnificum Bryhtnoðum comitem, me requisiiuit et impetrauit ut ad confirmandam aecclesiasticarum possessionum libertatem su[i] episcopatus, ad centuriatum qui Wulfereſl[aw] dicitur, quem ipsa aecclesia antiquitus libere possidebat ei conce[de]rem alterum hundredum facere, libertate donata de terris aecclesiae quae adhuc hactenus regiis exactionibus subiacebant, uidelicet Breodune, Blecclea, Tyrdintune, quatinus posset ipse cum monachis suis unam naucupletionem, quod Anglice scyppylleð dicitur, per se habere, placuit mihi hoc ei annuere, tam pro eius religiosa sanctitate quam pro ipsorum legatorum reuerentia et dilectione. Quapropter ego Eadgarus Anglorum rex et basileus deo et sanctae dei genitrici Mariae eiusque ministro Oswaldo meo fideli episcopo libens annuo et dono huius libertatis priuilegium, sicut ab ipsis rogatus sum, scilicet ut ipse episcopus cum monachis suis de istis tribus centuriatibus, id est hundredis, uidelicet Wulfereſlaw et Winburgetrowe et tertio monachorum quod dicitur Cuðburgelawe construant unam naucupletionem, quod Anglice dicitur scyppylleð oððe scypsocne, in loco quem ob eius memoriam Oswaldeſlaw deinceps appellari placuit, ubi querelarum causae secundum morem patriae [et] legum iura iure discernantur; habeatque ipse episcopus omnesque sui successores ibi ad ius aecclesiasticum debita transgressionum et poenam delictorum quae nos dicimus ofersegenesse et gyltwite et omnia quaecunque rex in suis hundredis habet; ita tamen ne ipsi qui ibi deo seruiunt monachi de suo iure

aut libertate quam ad suum hundred eis concessi quicquam perdant, sed habeant ipsi ibi omnia quae ad suum ius, id est ad tertium centuriatum, pertinent aequae integra ac si per se separatim essent, uidelicet debita transgressionum et poenam delictorum, et caetera quae superius comprehensa sunt, quae eis libere et quiete perpetualiter tenenda concessi; sintque haec omnia et quaecunque illorum sunt sub eius manu et potestate, qui ipsis in monastici ordinis regimine sub episcopo praepositus fuerit. Qui si se uiderint iniuste grauari uel ui opprimi, fas sit eis ad regiae maiestatis et archiepiscopi examen et tutelam, si tamen necesse fuerit, confugere, qui propter deum equitatem et clementem defensionem eis impendant. Seruantibus haec uita aeterna tribuatur a domino in coelestibus. THE NAMES OF PLACES.

INTRODUCTION.

THE value of a local index to a work of this description will, it is hoped, be readily acknowledged : I earnestly wish that I could believe the execution of the following one to be at all commensurate with its importance. But so great are the difficulties, arising partly from the nature of the subject itself, and partly from the want of all aids in its treatment, that I do not venture to send it forth without apologizing for its imperfections, and pleading for the gentle consideration of the reader. It may hereafter be greatly improved, when the attention of those who possess accurate knowledge of different localities is brought to bear upon it ; and in proportion as this is done, I will dare to predict that a most surprising correspondence will be found between the ancient and modern features of the country, and the names by which they were and yet are designated. Nothing more clearly proves the permanent character of our land-divisions than this one fact, which is by no means confined to great and flourishing places, towns,

manors, and parishes, but extends even to little brooks, and hills, and even to the sites of small farmhouses.

Here and there, when it could be done with safety, an attempt has been made to identify the ancient with the modern names. But it is necessary to explain that a fourfold notation has been adopted throughout this index to express four different stages of certainty in that interpretation.

Where a name stands alone, with only the reference to the numbers of the charters in which it is found, its position denotes that I have nothing to say about it: thus in the first column,

Abban crundel, 1266:

of Abba's *crundel* I unfortunately know nothing.

Where the name and references are followed by another name, in a line below, and in the same roman type, I believe myself to be sure of their identity: thus in the same column,

Acleáh, 186, seq.:
Ockley, Surrey.

If a doubt exists as to the identity of an ancient and modern name, a note of interrogation is prefixed to the latter: thus,

Ægelnóðes stán, 755.
? Aylton, Hereford,

denotes that the first-named place was in the county of Hereford; that there is a place in that county

bearing the second name, but that it is uncertain whether the places are the same.

Lastly, where the modern name is printed in italic character, it marks an attempt to suggest the name which may be borne by a corresponding place in the same county. Thus, when I write

Achangra, 1094.

Oakhanger, Hants,

I intend to say that Achangra was in Hampshire, and that if there is any corresponding place in that county, it is now probably known by the name of Oakhanger, but that I have no means of knowing whether there is such a place or not.

It is obvious that the local knowledge of those whose opportunities favour such investigations, will find its best field in this class of names. The suggestions are founded upon the analogies of other names, and the well-ascertained rules of change which Anglosaxon words in general manifest in their gradual declension into English, still this is at the best an uncertain portion of my labour, and probably is full of errors. By printing it in a different type I have endeavoured to guard the reader from accepting what seem probabilities to me for ascertained facts; but experience has shewn that these guesses are sometimes fortunate: since the index was begun, many words have been removed from the fourth into the second class, and it is to be hoped that many more may yet be found worthy of a similar transposition.

It remains only to say that the numbers refer to the numbers of the documents in the Codex ; and that in general the names have been transferred from the dative, in which they usually occur, to the nominative singular.
